TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, Bootstrap, Tailwind CSS, Core JavaScript, React.js, AngularJS

Backend Development: Core PHP, MySQL

UI/UX Design: Figma

Programming Languages: Core Java, Core PHP

PROFESSIONAL EXPERIENCE

Software Development | 01/2024 - 01/2025
Sankhyank Tech Solutions LLP

- Designed a user-centric application interface using Figma, focusing on visual appeal and UX enhancement. Developed a responsive Spider AI clone using Bootstrap, ensuring cross-browser compatibility and optimized layouts. Built a dynamic election website using PHP and SQL, integrating secure data handling, MySQL database management, and backend functionality. Created a shopping e-commerce website with React.js, utilizing reusable components and state management for a seamless user experience across devices.

Associate Software Developer | 06/2024 - 10/2024
Panamax Inc

- During my training at Panamax, I built a strong foundation in Java by learning core concepts and applying them in practical scenarios. I gained hands-on experience with Object-Oriented Programming (OOP) principles like Encapsulation, Inheritance, Polymorphism, and Abstraction to develop modular and maintainable applications. I also explored Java's internal components, including JVM, JDK, and JRE, to understand how applications are compiled and executed. Additionally, I worked with variables, operators, and expressions, improving my ability to write efficient and logical code.

Web Development & Q A Testing Intern | 07/2023 - 01/2024
Clear Health

- I performed manual testing of web pages, identifying layout issues, ensuring responsiveness across devices, and verifying functionality of links, buttons, and navigation. I collaborated with teams to improve user experience and resolve issues. In web development, I applied HTML, CSS, Bootstrap, and JavaScript to enhance webpage structures and styling. Additionally, I contributed to designing a gym webpage for "Clear Health" using Figma, creating a user-friendly layout with consistent UI/UX elements aligned with project goals.

EDUCATION

Silver Oak University | 2021-2025 Expected June
Bachelor of Technology (B.Tech) in Information Technology

- CGPA: 9.38

CERTIFICATES

Full Stack Web Development Course Certified by Grass Foundation | 03 – 2023 to 08 – 2023

- I gained hands-on experience with the MERN stack, building modular UIs in React.js using reusable components, state management, and client-side routing. I worked with MongoDB for database management, handling dynamic schemas, filtering, and indexing for optimized data retrieval. This course equipped me with the skills to develop and deploy full-stack web applications efficiently.
-

PROJECTS

Personal Portfolio using HTML and CSS

- In this project, I created a responsive web page with smooth animations and transitions to enhance user experience. Effects like hover animations and fade-ins were added to make the page dynamic and interactive. The design adapts seamlessly to various screen sizes, ensuring a modern, mobile-friendly experience.

Template-based Website

- Used a web template to create a dynamic website, focusing on routing and integrating state management with hooks in React.js. Applied the JSX syntax to style elements and handle events effectively.
