Projects

Tours and Travels
- Create a travel website using pure HTML and CSS to provide information about travel destination, tours and booking options.
- Technologies Used: HTML, CSS, Bootstrap, JavaScript, Node.js and MySQL

Weather App
- Developed a responsive web application that allows users to search for weather details by city. The app provides comprehensive weather information such as temperature, humidity, Max and Min Temp, and forecast. Built using HTML, CSS, JavaScript, and integrated with a weather API to fetch real-time data.
- Technologies Used: HTML, CSS, JavaScript and React.js
